FAIRTRADE

Fair Trade puts people and the planet first. According to The World Fair Trade Organization, Fair Trade is defined as “a trading partnership, based on dialogue, transparency, and respect, which seeks greater equity in international trade.”

When you purchase a Fair Trade certified item, you’re ensuring the workers who produced or helped to create it are provided fair compensation and safe working conditions. Environmental sustainability is a key component to Fair Trade as well, with strict environmental standards that must be followed. Farmers that are struggling financially are often forced to engage in cheap agricultural practices that are damaging to the environment and yield low quality crops. With Fair Trade, workers and farmers are able to implement more environmentally sustainable practices, improving the quality of their products and crops while also reducing their impact on natural resources.

The Marquette Food Co-op supports Fair Trade because we have a social and environmental responsibility and the choices we make as consumers matter.
